- ii. SGPA is a measure of performance of the student in a semester. It is ratio of total credit points secured by a student in various courses registered in a semester and the total course credits taken during that semester, i.e.

$$SGPA = \frac{\sum_{i=1}^n ci pi}{\sum_{i=1}^n ci}$$

Where ci is the number of credits offered in the i^{th} subject of a semester for which SGPA is to be calculated, pi is the corresponding Grade Point (GP) earned in the i^{th} subject, where $i= 1,2n$ are the number of subjects in that semester.

- iii. CGPA is a measure of overall cumulative performance of a student over all the semesters completed. The CGPA is the ratio of total credit points secured by a student in various courses in all the semesters completed and the sum of the total credits of all courses in all the semesters completed, i.e.

$$CGPA = \frac{\sum_{j=1}^m SGj NCj}{\sum_{j=1}^m NCj}$$

Where NCj is the number of total credits offered in the J^{th} semester, SGj is the SGPA earned in the J^{th} semester, where $j=1, 2 m$ are the number of semesters in that course.

- iv. On completing all requirements for award of the undergraduate certificate/ diploma/ degree, the CGPA will be calculated and this value will be indicated on the certificate/diploma/degree. The 3-years and 4-years undergraduate degrees should also indicate the Division obtained as per follows:

Division	Criterion
First division with distinction	The candidate has earned minimum number of credits required for the award of the degree with CGPA of 7.50 or above
First division	The candidate has earned minimum number of credits required for the award of the degree with CGPA of 6.00 above but less than 7.5
Second division	The candidate has earned minimum number of credits required for the award of the degree with CGPA of 5.00 or above but less than 6.00

- v. The conversion of CGPA into percentage will be as follow to facilitate its application in other academic matters:
 - vi. $\text{Equivalent Percentage} = \text{CGPA} \times 10$
 - vii. The percentage will be rounded off up to second decimal point.
 - viii. The student will be examined by the university as per the prevailing syllabus and scheme of examination.
 - ix. The candidate shall be awarded a certificate/diploma/degree when he/she successfully earns the minimum requisite credits for the certificate/diploma/degree.

The guidelines of the University/ SWAYAM portal/ UGC shall be followed for evolution and certification of MOOCs, Vocational courses, Field- Projects/ Internship/ Apprenticeship/ Community engagement & service/Research Project.

18) Calculation of SGPA/CGPA:

i. The Semester Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA) will be calculated as weighted average of credit points secured by the student, except the credits of additional courses, if any. The, SGPA and CGPA shall be rounded off up to 2 decimal places and reported in the grade sheet.

ii. SGPA is a measure of performance of the student in a semester. It is ratio of total credit points secured by a student in various courses registered in a semester and the total course credits taken during that semester, i.e.

$$SGPA = \frac{\sum_{i=1}^n ci pi}{\sum_{i=1}^n ci}$$

Where ci is the number of credits offered in the i^{th} subject of a semester for which SGPA is to be calculated, pi is the corresponding Grade Point (GP) earned in the i^{th} subject, where $i=1,2, \dots, n$ are the number of subjects in that semester.

iii. CGPA is a measure of overall cumulative performance of a student over all the semesters completed. The CGPA is the ratio of total credit points secured by a student in various courses in all the semesters completed and the sum of the total credits of all courses in all the semesters completed, i.e.

$$CGPA = \frac{\sum_{j=1}^m SGj NCj}{\sum_{j=1}^m NCj}$$

Where NCj is the number of total credits offered in the J^{th} semester, SGj is the SGPA earned in the J^{th} semester, where $j=1, 2, \dots, m$ are the number of semesters in that course.

iv. On completing all requirements for award of the undergraduate certificate/ diploma/ degree, the CGPA will be calculated and this value will be indicated on the certificate/diploma/degree. The 3-years and 4-years undergraduate degrees should also indicate the Division obtained as per follows:

Division	Criterion
First division with distinction	The candidate has earned minimum number of credits required for the award of the degree with CGPA of 7.50 or above
First division	The candidate has earned minimum number of credits required for the award of the degree with CGPA of 6.00 above but less than 7.5
Second division	The candidate has earned minimum number of credits required for the award of the degree with CGPA of 5.00 or above but less than 6.00

- v. The conversion of CGPA into percentage will be as follow to facilitate its application in other academic matters:
- vi. Equivalent Percentage = CGPA x10
- vii. The percentage will be rounded off up to second decimal point.
- viii. The student will be examined by the university as per the prevailing syllabus and scheme of examination.
- ix. The candidate shall be awarded a certificate/diploma/degree when he/she successfully earns the minimum requisite credits for the certificate/diploma/degree.
- x. A Grade Card shall be issued to all the students after every semester based on the grades earned. The course details (code, title, number of credits, grade secured) along with SGPA of every semester and CGPA earned till that Academic Year will be displayed in the grade card.

$$SGPA = \frac{\sum_{i=1}^n ci pi}{\sum_{i=1}^n ci}$$

Where ci is the number of credits offered in the i^{th} subject of a semester for which SGPA is to be calculated, pi is the corresponding Grade Point (GP) earned in the i^{th} subject, where $i=1,2, \dots, n$ are the number of subjects in that semester.

iii. CGPA is a measure of overall cumulative performance of a student over all the semesters completed. The CGPA is the ratio of total credit points secured by a student in various courses in all the semesters completed and the sum of the total credits of all courses in all the semesters completed, i.e.

$$CGPA = \frac{\sum_{j=1}^m SGj NCj}{\sum_{j=1}^m NCj}$$

Where NCj is the number of total credits offered in the J^{th} semester, SGj is the SGPA earned in the J^{th} semester, where $j=1, 2, \dots, m$ are the number of semesters in that course.

iv. On completing all requirements for award of the undergraduate certificate/ diploma/ degree, the CGPA will be calculated and this value will be indicated on the certificate/diploma/degree. The 3-years and 4-years undergraduate degrees should also indicate the Division obtained as per follows:

Division	Criterion

The guidelines of the University/ SWAYAM portal/ UGC shall be followed for evolution and certification of MOOCs, Vocational courses, Field- Projects/ Internship/ Apprenticeship/ Community engagement & service/Research Project.

18) **Calculation of SGPA/CGPA:**

- i. The Semester Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA) will be calculated as weighted average of credit points secured by the student, except the credits of additional courses, if any. The, SGPA and CGPA shall be rounded off up to 2 decimal places and reported in the grade sheet.
- ii. SGPA is a measure of performance of the student in a semester. It is ratio of total credit points secured by a student in various courses registered in a semester and the total course credits taken during that semester, i.e.

$$SGPA = \frac{\sum_{i=1}^n ci pi}{\sum_{i=1}^n ci}$$

Where ci is the number of credits offered in the i^{th} subject of a semester for which SGPA is to be calculated, pi is the corresponding Grade Point (GP) earned in the i^{th} subject, where $i= 1,2n$ are the number of subjects in that semester.

- iii. CGPA is a measure of overall cumulative performance of a student over all the semesters completed. The CGPA is the ratio of total credit points secured by a student in various courses in all the semesters completed and the sum of the total credits of all courses in all the semesters completed, i.e.

$$CGPA = \frac{\sum_{j=1}^m SGj NCj}{\sum_{j=1}^m NCj}$$

Where NCj is the number of total credits offered in the J^{th} semester, SGj is the SGPA earned in the J^{th} semester, where $j=1, 2 m$ are the number of semesters in that course.

- iv. On completing all requirements for award of the undergraduate certificate/ diploma/ degree, the CGPA will be calculated and this value will be indicated on the certificate/diploma/degree. The 3-years and 4-years undergraduate degrees should also indicate the Division obtained as per follows:

Division	Criterion
First division with distinction	The candidate has earned minimum number of credits required for the award of the degree with CGPA of 7.50 or above
First division	The candidate has earned minimum number of credits required for the award of the degree with CGPA of 6.00 above but less than 7.5
Second division	The candidate has earned minimum number of credits required for the award of the degree with CGPA of 5.00 or above but less than 6.00

- v. The conversion of CGPA into percentage will be as follow to facilitate its application in other academic matters:
- vi. $\text{Equivalent Percentage} = \text{CGPA} \times 10$
- vii. The percentage will be rounded off up to second decimal point.
- viii. The student will be examined by the university as per the prevailing syllabus and scheme of examination.
- ix. The candidate shall be awarded a certificate/diploma/degree when he/she successfully earns the minimum requisite credits for the certificate/diploma/degree.
- x. A Grade Card shall be issued to all the students after every semester based on the grades earned. The course details (code, title, number of credits, grade secured) along with SGPA of every semester and CGPA earned till that Academic Year will be displayed in the grade card.

19) Credit Transfer:

- i. The credit transfer shall be implemented as per the policy of the university framed in accordance with the guidelines issued by the UGC from time to time.
 - ii. 18) **Calculation of SGPA/CGPA:**

- i. The Semester Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA) will be calculated as weighted average of credit points secured by the student, except the credits of additional courses, if any. The SGPA and CGPA shall be rounded off up to 2 decimal places and reported in the grade sheet.
- ii. **SGPA** is a measure of performance of the student in a semester. It is ratio of total credit points secured by a student in various courses registered in a semester and the total course credits taken during that semester, i.e.

$$\text{SGPA} = \frac{\sum_{i=1}^n ci pi}{\sum_{i=1}^n ci}$$

Where **ci** is the number of credits offered in the i^{th} subject of a semester for which SGPA is to be calculated, **pi** is the corresponding Grade Point (GP) earned in the i^{th} subject, where $i=1,2, \dots, n$ are the number of subjects in that semester.

- iii. **CGPA** is a measure of overall cumulative performance of a student over all the semesters completed. The CGPA is the ratio of total credit points secured by a student in various courses in all the semesters completed and the sum of the total credits of all courses in all the semesters completed, i.e.

$$\text{CGPA} = \frac{\sum_{j=1}^m SGj NCj}{\sum_{j=1}^m NCj}$$

Where **NCj** is the number of total credits offered in the J^{th} semester, **SGj** is the SGPA earned in the J^{th} semester, where $j=1, 2, \dots, m$ are the number of semesters in that course.

- iv. On completing all requirements for award of the undergraduate certificate/ diploma/ degree, the CGPA will be calculated and this value will be indicated on the certificate/diploma/degree. The 3-years and 4-years undergraduate degrees should also indicate the Division obtained as per follows:

A

Division	Criterion
First division with distinction	The candidate has earned minimum number of credits required for the award of the degree with CGPA of 7.50 or above
First division	The candidate has earned minimum number of credits required for the award of the degree with CGPA of 6.00 above but less than 7.5
Second division	The candidate has earned minimum number of credits required for the award of the degree with CGPA of 5.00 or above but less than 6.00

- v. The conversion of CGPA into percentage will be as follow to facilitate its application in other academic matters:
- vi. Equivalent Percentage = $CGPA \times 10$
- vii. The percentage will be rounded off up to second decimal point.

Annexure -I**Foundation Course****BACKGROUND**

Homoeopathic Medical education in India requires the orientation of the new entrant to a basic philosophical orientation, a need to think in an integrated and holistic manner, an ability to function in a team at the bedside and a capacity to invest in a life-long learning pattern. Homoeopathy, though more than 250 years old, is relatively young as a scientific discipline and has attracted a number of negative community exposures due to a variety of reasons. In India, we are aware that the student who enters the portals of a homoeopathic college rarely does so out of his volition. It is often an exercise as the last choice or one which is adopted as a stepping stone to a 'medical' degree. Hence the mind-set of the new entrant is rarely informed, positive and self-affirming.

However, we know that like all medical disciplines, homoeopathy training includes a wide spectrum of domains that involves exposure to human interactions and interpersonal relationships in various settings including hospital, community, clinics etc. The training is intense and demands great commitment, resilience and lifelong learning. It is desirable to create a period of acclimatization and familiarization to the new environment. This would include an introduction to the course structure, learning methods, technology usage, and peer interactions which would facilitate their smooth transition from Junior college to homoeopathic college.

This is planned to be achieved through a dedicated 15 days exclusive "Foundation Course", at the beginning of the BHMS course to orient and sensitize the student to the various identified areas.

Goals and Objectives

Broad goals of the Foundation Course in Homoeopathy include:

- 1) Orienting the students to various aspects of homoeopathic system of medicine.
- 2) Creating in them the conscious awareness of the 'Mission' as defined by Master Hahnemann
- 3) Equipping them with certain basic, but important skills required for going through this professional course and taking care of patients.
- 4) Enhancing their communication, language, computer and learning skills.
- 5) Providing an opportunity for peer and faculty interactions and introducing an orientation to various learning methodologies.

Objectives

- a) **Orient the learner to:**
 - (i) The medical profession and the mission of a homoeopath in society
 - (ii) The BHMS programme
 - (iii) Vision and Mission of the Institute
 - (iv) Concept of Holistic and Positive health and ways to acquire and maintain it

- (v) History of Medicine and Homoeopathy and the status of Homoeopathy in the world
- (vi) Medical ethics, attitudes and professionalism
- (vii) Different Health systems available in the country
- (viii) Health care system and its delivery
- (ix) National health priorities and policies
- (x) Principles of primary care (general and community-based care)
- (xi) Concept of mentorship programme
- b) **Enable the learner to appreciate the need to enhance skills in:**
 - (i) Language
 - (ii) Observation, documentation & understanding of basic medical technologies
 - (iii) Interpersonal relationships and Team behavior
 - (iv) Communication across ages and cultures
 - (v) Time management
 - (vi) Stress management
 - (vii) Use of information technology
- c) **Train the learner to provide:**
 - (i) First-aid/ Emergency management
 - (ii) Basic life support
 - (iii) Universal precautions and vaccinations
 - (iv) Patient safety and biohazard safety
- d) **Language and Computer skills**
 - (i) Local language programme
 - (ii) English language programme
 - (iii) Computer skills

These may be arranged as per the needs of the particular batch and extra coaching may be continued after the Foundation programme

Content and Methodology

The programme will be run in Sessions which must be interactive.

The major components of the Foundation Course include:

1. **Orientation Program:** This includes orienting students to all the components mentioned below with special emphasis on the role of Homoeopathy and homoeopath in today's times.
2. **Skills Module (Basic):** This involves skill sessions such as Basic Life Support/ Emergency Management, First Aid, Universal Precautions and Biomedical Waste and Safety Management that students need to be trained prior to entering the patient care areas.

3. **Field visit to Community and Primary Health Centre:** These visits provide orientation to the care delivery through community and primary health centres, and include interaction with health care workers, patients and their families.
4. **Professional development including Ethics:** This is an introduction to the concept of Professionalism and Ethics and is closely related to Hahnemann's emphasis on the conduct of a physician. This component will provide students with understanding that clinical competence, communication skills and sound ethical principles are the foundation of professionalism. It will also provide understanding of the consequences of unethical and unprofessional behavior, value of honesty, integrity and respect in all interactions. Professional attributes such as accountability, altruism, pursuit of excellence, empathy, compassion and humanism will be addressed. It should inculcate respect and sensitivity for gender, background, culture, regional and language diversities. It should also include respect towards the differently abled persons. It introduces the students to the basic concept of compassionate care and functioning as a part of a health care team. It sensitizes students to "learning" as a behavior and to the appropriate methods of learning.
5. **Enhancement of Language / Computer skills / Learning Skills:** These are sessions to provide opportunity for the students from diverse background and language competence to undergo training for speaking and writing English, fluency in local language and basic computer skills. The students should be sensitized to various learning methodologies such as small group discussions, skills lab, simulations, documentation and concept of Self-Directed learning.
